Activity Usage and Maintenance Responsibility

As valued owners at KAHAL, The Gentry Collection is delighted to offer you exclusive access to our range of premium amenities and activities. To ensure the sustainability and high standard of these services, a small contribution towards a maintenance fund is included in the rental costs. This helps us keep everything in top condition, ensuring you have the best experience every time.

Special Note on Boat Usage: For those taking advantage of our boating activities, please note that the owner's price covers a portion that goes toward a maintenance fund and fuel costs only. This arrangement ensures that our boats are always ready and in perfect condition for your adventures, preventatively covering unexpected expenses or hassles.

We appreciate your understanding and cooperation in maintaining the quality and readiness of our amenities. Thank you for helping us provide a seamless and enjoyable experience for all our community members.
